

## **28TH GOURMAND WORLD COOKBOOK AWARDS 2023** **WINNERS BY COUNTRIES**

Go International !

Food and drink books are now global. They are the pillars of food culture, an essential issue today, for the public, professionals and governments.

The Gourmand Awards offer here for 2022 the resource of its World Platform for Food and Drinks Culture. It brings together the best of over 100.000 screened books and publications from some 230 countries and regions. It gives an overview about food and drink information published in the last year.

There are various criteria for each category on the list, but they have all in common one guiding principle, all books are chosen for their appeal and importance from an international point of view. These books deserve to be promoted and to become known internationally. They should be translated and distributed worldwide.

The planned next steps for books on this list

**- Taste of Angkor, Cambodia - March 9-12, 2023**

Each book is welcome to a ten minutes presentation.

**- Umea Food Symposium 2 - May 25-28, 2023**

where results are announced.
